1.1 Test type

Functional Test

1.2 System Under Test

System name: Sinsay, www.sinsay.com/bg/bg/

Version: 10 January 2022

Short description of the system:

Sinsay is a Polish brand, owned by LPP Spółka Akcyjna – company dealing with design, production, and distribution of clothing. The company has five brands in its portfolio: Reserved, House, Cropp, Mohito and Sinsay. Sinsay is the newest brand of LPP but offers a wide variety of women's and men's clothing, shoes and accessories, children's clothing and various home accessories. The site also provides an opportunity to check the availability of items in physical stores.

10.	Verify that the last name can be entered.	The last name can be entered.
11.	Enter the last name.	The last name is entered.
12.	Verify that the password can be entered.	The password can be entered.
13.	Enter the password.	Password is entered.
14.	Click the „Създайте акаунт“ button.	Registration is not successful.
Test verdict	Passed	

Comment: The user was not created. The first name must not contain numbers.

3.1.5 Tests the registration form with incorrect last name

Test Case ID	Registration_5	
Description	Tests the registration form with incorrect last name.	
Applicable for	Google Chrome	
Initial Conditions	The user must be logged out.	
Test Steps ID	Test Step Description	Expected Result
1.	Open the system.	Home page of the site is loaded.
2.	Click the „Акаунт“ button.	The account page is loaded.

3.	Verify that the account page is displayed on Chrome.	The account page is displayed correctly.
4.	Click the „Създайте акаунт“ button.	The registration page is loaded.
5.	Verify that the registration page is displayed on Chrome.	The registration page is displayed correctly.
6.	Verify that the e-mail address can be entered.	The e-mail address can be entered.
7.	Enter the e-mail address.	The e-mail address is entered.
8.	Verify that the first name can be entered.	The first name can be entered.
9.	Enter the first name.	The first name is entered.
10.	Verify that the last name can be entered.	The last name can be entered.
11.	Enter “Велева00” as the last name.	The last name is entered. The system shows a message for an incorrect last name address.
12.	Verify that the password can be entered.	The password can be entered.
13.	Enter the password.	Password is entered.
14.	Click the „Създайте акаунт“ button.	Registration is not successful.
Test verdict	Passed	

Comment: The user was not created. The last name must not contain numbers.

3.1.6 Tests the registration form without any information filled

Test Case ID	Registration_6
Description	Tests the registration form without any information filled.
Applicable for	Google Chrome

Initial Conditions	The user must be logged out.	
Test Steps ID	Test Step Description	Expected Result
1.	Open the system.	Home page of the site is loaded.
2.	Click the „Акаунт“ button.	The account page is loaded.
3.	Verify that the account page is displayed on Chrome.	The account page is displayed correctly.
4.	Click the „Създайте акаунт“ button.	The registration page is loaded.
5.	Verify that the registration page is displayed on Chrome.	The registration page is displayed correctly.
6.	Verify that the e-mail address can be entered.	The e-mail address can be entered.
7.	Verify that the first name can be entered.	The first name can be entered.
8.	Verify that the last name can be entered.	The last name can be entered.
